# ProOmega-D Liquid with Vitamin D

**NORDIC<sup>®</sup>**  
**NATURALS**   
*Pure and Great Tasting Omega Oils*

## Concerned about getting adequate levels of Vitamin D?

Vitamin D is found in food, and can also be made in the body from exposure to sunlight. Varying amounts of sun exposure, the constant use of sun block, and dietary choices all influence your vitamin D levels. Recent research indicates that most Americans have too little vitamin D for optimum health.

It is also reported by the Council for Responsible Nutrition that up to 75% of the U.S. population is deficient in the important and essential Omega-3 fatty acids.

ProOmega-D is an exceptionally high Omega-3 fish oil concentrate with added vitamin D<sub>3</sub>. Vitamin D<sub>3</sub>, cholecalciferol, is the naturally occurring form of vitamin D, preferred by the body for optimal absorption and utilization.

## Why choose to supplement?

- ☀️ The typical American diet does not supply adequate levels of “essential” fatty acids.
- ☀️ Fish oils and vitamin D are essential nutrients that are absorbed very well together.
- ☀️ Humans cannot make omega-3 fatty acids. Therefore, they must be obtained from diet or supplementation. The functional omega-3 fatty acids in fish oil, EPA and DHA, have been extensively studied in humans in over 6,000 clinical studies and have an array of documented health benefits.

*Nordic Naturals was ranked #1 out of the top 10 fish oil brands in Norway for highest concentration, freshness, and purity.*

# Why take ProOmega-D Liquid?

- ☀️ **Essential nutrition**—Nourish your body and brain with health-promoting omega-3 fatty acids and vitamin D. ProOmega-D provides excellent nutrition and supports healthy mood.\*
- ☀️ **Seasonal immune function**—Numerous studies document that EPA and DHA, the beneficial fatty acids in fish oil, and vitamin D support immune function.\* ProOmega-D improves immune response.\*
- ☀️ **Stronger bones**—Each serving of ProOmega-D contains 400 IU of 100% natural vitamin D (cholecalciferol), long known for its important role in regulating body levels of calcium and phosphorus, and in mineralization of bones. Studies document that adults with lower vitamin D levels tend to incur more bone fractures than those with higher levels.

*Great lemon flavor.*

*Absolutely pure and fresh.*

*Never a fishy taste or aftertaste.*
