

# CHRISTOPHER MOHR, PHD, RD, CSSD

## NORDIC NATURALS' ADVISORY BOARD MEMBER

*“Omega-3 fatty acids are essential for disease prevention and increased quality of life. Aside from their benefit on the heart, brain, and other areas of the body you can't “feel” on a daily basis, they also help with joint fluidity and pain reduction, which are very tangible issues. The benefits received from obtaining adequate levels of omega-3 fats go on forever and I believe they should be as “mainstream” as a simple multivitamin.”*

—Christopher Mohr,  
PhD, RD, CSSD
