

# OMEGA™ PROBIOTIC

Synergistic blend of high concentrate, purified fish oil and live probiotic spores for optimal digestive and gastrointestinal health\*

*No refrigeration  
required!*

**NORDIC®  
NATURALS**   
*Pure and Great Tasting Omega Oils*

# OMEGA PROBIOTIC

PURIFIED FISH OIL + LIVE PROBIOTIC SPORES

OMEGA PROBIOTIC™ combines two of the most important and lacking nutrients in the modern diet in a breakthrough formula for digestive and gastrointestinal health.

Concentrated fish oil works in synergy with a unique spore-form probiotic to support and promote enhanced gastrointestinal health, while also supporting the immune system and promoting an optimal balance of healthy vs. harmful bacteria in your digestive tract.\*

2 soft gels:  
990 mg Omega-3s EPA+DHA  
140 mg *Bacillus coagulans*  
2 billion viable cells

## WHY FISH OIL FOR DIGESTION?

Purified fish oil is the best source of the omega-3 essential fatty acids EPA and DHA, which are crucial for optimal health but cannot be produced by our bodies. Studies show that higher intakes of EPA and DHA from fish oil supports and promotes:

- the body's natural anti-inflammatory response\*
- enhanced gastrointestinal health\*

The concentrated fish oil in **OMEGA PROBIOTIC** provides double-strength EPA+DHA for high intensity support of digestive and colon health.\*

## WHY PROBIOTICS FOR DIGESTION?

Probiotics are beneficial bacteria that balance the intestinal flora and benefit digestive and immunological health.\*

The species of probiotic in **OMEGA PROBIOTIC** is *Bacillus coagulans*, which has been widely consumed around the world for decades with an excellent safety profile. Unlike most probiotics on the market, this probiotic is in spore form, which offers three key advantages:

- **Potency—Ten times more live cultures than yogurt**  
Studies show that this live probiotic delivers more than 10 times the live probiotic cells as most yogurts.\*
- **Effective Delivery—Survives to thrive in the intestines**  
Due to its unique, natural, protective layer, this probiotic can survive heat, cold, and stomach bile acids to arrive alive and able to thrive in the intestines.
- **Convenience—No refrigeration required**  
Because it only becomes viable once it is in the intestinal tract, this probiotic does not require special treatment such as refrigeration.

For maximum probiotic benefit, daily dosing is recommended, making it an ideal addition to your daily fish oil regime.

# OMEGA PROBIOTIC:

- provides double strength EPA+DHA fish oil for more omega-3 benefits\*
- supports the body's natural anti-inflammatory response\*
- promotes a healthy balance of intestinal flora\*
- enhances overall digestive and gastrointestinal health and function\*
- may help support those with digestive and immune challenges\*
- requires no refrigeration

† Daily Value not established. ‡ Natural Triglycerides Less than 5 mg of Cholesterol per serving.

**Ingredients:** purified deep sea fish oil (from anchovies and sardines), soft gel capsule (gelatin, glycerin, purified water, caramel color), natural lemon oil, bacillus coagulans, vitamin E (d-alpha tocopherol), rosemary extract, beeswax.

May have been manufactured on the same processing line as products containing soy derivatives.

No gluten, milk derivatives, or artificial colors or flavors.

# THE NORDIC NATURALS DIFFERENCE

## UNPARALLELED FRESHNESS:

- Our fish oil is manufactured in a 100% oxygen-free environment to preserve its unique freshness.

## EXCEPTIONAL PURITY:

- Molecular distillation removes any potential impurities down to the parts-per-trillion level. Certificates of analysis are available upon request.
- Our fish oils surpass all national and international standards for purity and freshness.
- All Nordic Naturals products are third-party tested for freshness and purity.

## UNSURPASSED QUALITY:

- Our fish oils are manufactured from the highest quality raw material, and contain the triglyceride form of EPA+DHA for optimized absorption.
- Nordic Naturals products are used and recommended by leading doctors and research institutions around the world.

## SUSTAINABLE FISHING:

- 100% of our fish is wild caught and sourced in accordance with the Norwegian fisheries management system, which has been a model for the sustainable harvest of marine life for over 30 years.
- 100% of our fish is utilized for human or animal consumption.
