

# OMEGA-3s

## *For High Intensity Support*

Nordic Naturals high concentrate fish oil formulas provide double the level of EPA and DHA per serving. These high-potency formulas are a convenient way for individuals with elevated triglycerides to meet the American Heart Association's recommendations for EPA and DHA (2-4 grams/day)<sup>1</sup>, and for those who simply want more Omega-3s per soft gel. As with all Nordic Naturals products, our concentrated formulas are in the natural triglyceride form for optimal absorption.

**The omega-3s (EPA + DHA) found in Nordic Naturals fish oil:**

- Support cardiovascular health\*
- Provide essential nutrients for brain and nerve health\*
- Support the body's natural anti-inflammatory response\*
- Assist with fat metabolism, making it easier to manage weight and stay fit\*
